Experience

AICTE

Apr 2025 – Jun 2025

Cloud Virtual Internship (Remote)

- Successfully completed a **10-week Cloud Virtual Internship** organized by **AICTE EduSkills** in collaboration with **AWS Academy**.
- Gained hands-on experience in **Cloud Computing**, including cloud infrastructure, virtualization, storage, and deployment concepts.
- Learned and worked with **AWS Cloud services**, improving understanding of scalable and secure cloud-based solutions.
- Developed knowledge of industry-standard cloud practices and enhanced problem-solving skills through practical assignments and training modules.

Projects

Space Explorer – Interactive Astronomy Website

May 2025 – Jul 2025

Frontend Development Project

- Developed an **interactive space-themed website** using **HTML, CSS, JavaScript, and Three.js** with visually engaging UI elements.
- Implemented a **3D solar system simulation** featuring rotating planets, animated backgrounds, and smooth user interactions for an immersive experience.
- Designed a fully **responsive frontend interface** optimized for desktop and mobile devices, improving accessibility and user experience.

Underwater Acoustic Sensor Networks

Jan 2026 – May 2026

Research-Based Minor Project

- Developed a smart energy-efficient framework for **Underwater Wireless Sensor Networks (UWSNs)** using **Python and MATLAB**.
- Implemented predictive energy scheduling and adaptive localization techniques to improve network performance.
- Reduced localization error and improved energy efficiency compared to existing approaches like **DAMAC** and **EELDS**.
- Evaluated system performance using metrics such as energy consumption, localization accuracy, and network lifetime.

Education

SRM Institute of Science and Technology, Chennai

Aug 2023 – May 2027

B. Tech in Software Engineering

CGPA: **9.00/10**

Sri Chaitanya Techno School

Apr 2021 – July 2023

PCM (CBSE 12th)

Percentage: **81.2%**

D.A.V Public School

Apr 2019 – July 2020

CBSE 10th

Percentage: **79.6%**

Skills

Programming: JavaScript, Python (Beginner), SQL, C++, C

Web Development: React.js, Vite, HTML5, CSS3, Tailwind CSS, Responsive UI Design, SPA, REST APIs

Frontend & UI: Component-Based Architecture, Framer Motion, Modern UI Design, Mobile-First Design

Machine Learning & Data Analytics: KNIME Analytics Platform, Data Preprocessing, Regression & Classification Models

Version Control & Deployment: Git, GitHub, Git Branching, Vercel, CI/CD Pipelines, Unity, AutoCad

Certifications & Achievements

Oracle Fusion Cloud Applications SCM Process Essentials Certified – Oracle

May 2025

MongoDB Associate Developer – MongoDB

Apr 2026

Best Paper Award – 7th IEEE International Conference in Computation, Automation and Networking

Jun 2026

Merit Scholarship 2023 – SRM Institute of Science and Technology

Jun 2023–May 2027

Awarded **25% Rank-Based Merit Scholarship** for academic excellence at SRMIST.
